# Evidence-State Perception Case Study

## SP-RAG (Base Policy): Incorrect Evidence-State Perception

**Q: What tools are listed in Wyatt Jenkins' A/B Testing presentation for defining quantifiable success metrics?**

(1)

**Asset:**

S\nGROWTH\niss simply a series of experiments\nWyatt Jenkins VP Product\nat shutterstock

(2)

*No grounded belief*

Grounded beliefs: none

(3)

**Misguided retrieval query :**

Tools that can be used for A/B testing defining quantifiable success metrics.

(1)

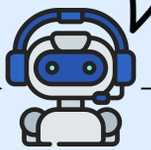

**Retrieved Evidence (Wrong Source)**

· Behavior or Preference measurement
· A/B Testing A/B Split Testing
· Monte-CarloSimulation
……

(2)

*Premature sufficient decision*

(4)

**Answer**

Behavior or Preference measurement, A/B Split Testing
……
**(Incorrect)**

## SP-RAG (ours): Perception-Aligned Retrieval

**Q: What tools are listed in Wyatt Jenkins' A/B Testing presentation for defining quantifiable success metrics?**

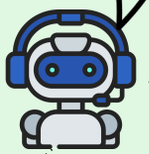

(1)

**Asset:**

S\nGROWTH\niss simply a series of experiments\nWyatt Jenkins VP Product\nat shutterstock

(2)

*Grounded source belief reveals a gap*

Grounded belief: this is Wyatt Jenkins' GROWTH presentation [slide asset]

(3)

**Gap-Specific Image Query:**

'Tools' or resources explicitly listed in the 'GROWTH' presentation

(1)

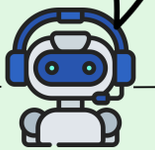

**Retrieved Evidence (Answer-Bearing)**

GROWTH
· Google Analytics
· Parse Analytics
· mixpanel
· KISSmetrics

(2)

*Sufficient grounded evidence*

(4)

· Google Analytics
· Parse Analytics
· mixpanel
· KISSmetrics
**(Correct)**

**State transition: (1) Retrieve and validate (2) Evidence-state perception (3) Perception-guided action planning (4) Final response**
