
1 Input
Question q
Which IoT layer handles routing?
Heterogeneous corpus C
Image
Application
Transport
Network
Perception
Text
Network layer → routing services ...
Distractor
Budget B
finite B
2 Acquire-Assess-Decide-Plan process
1 Acquire
Retrieve candidate evidences
Image candidate
Text candidate
Distractor / Noise
2 Assess
(Q1) Evidence necessity is difficult to assess
Useful
Redundant
Distracting
3 Decide
(Q2) Evidence sufficiency is difficult to decide
Sufficient
Insufficient
4 Plan
(Q3) The next retrieval action is difficult to plan
Effective query
Modality
Depth
3 Grounded output
Answer: Network layer
